Subject Broadband Connectivity Service

BBCS approved ADSL-modems and Routers

The ADSL equipments mentioned in the list, are tested and approved by Swisscom Fixnet Ltd. Swisscom recommends the End User to use the ADSL modems and routers tested and approved by Swisscom Fixnet.

- The CPE is owned by the End User or (I)SP and is under the service responsibility of the End User or (I)SP.
- This document is subject to alterations. Swisscom Fixnet is not responsible for CPE changes, which are not tested separately.
- In case of an End User in-house problem, Swisscom Fixnet will test the line synchronisation with an Alcatel SDSL modem/router as reference. It is possible that the modem from another manufacturer does not synchronise due to a longer distance between the Central Office and the End User.

BBCS approved ADSL-microfilters and splitters

The ADSL equipments mentioned in the list, are tested and approved by Swisscom Fixnet Ltd. Swisscom recommends the End User to use the ADSL- microfilters and splitters tested and approved by Swisscom Fixnet.

Note

Since the middle of May 2003 Swisscom does not recommend any ADSL over POTS microfilter or splitter which does not comply with the ETSI Standard TS 101 952-1-1.

ADSL over POTS microfilters and splitters which comply with the ETSI Standard TS 101 952-1-1 V1.1.1 or V1.2.1 (incl. VDSL over POTS) have the remark „ETSI OK“ ✓.
