

## Unlimited PC Card 5in1

- The Unlimited PC Card 5in1 provides high-speed wireless access from your laptop to the Internet or your company network.
- Connections are very stable since the PC card always automatically selects the fastest available network (seamless handover). The Unlimited PC Card 5in1 switches seamlessly between HSDPA, UMTS, EDGE, GPRS and WLAN.
- The Unlimited PC Card 5in1 supports these network technologies:
  - HSDPA (frequency 2100 MHz,  
transmission speed up to 1.8 Mbps)
  - UMTS (frequency 2100 MHz frequency,  
transmission speed up to 384 Mbps)
  - EDGE (frequencies 850/900 and 1800/1900 MHz,  
transmission speed up to 236.8 kbps)
  - GPRS (frequencies 900 and 1800 MHz,  
transmission speed up to 53.6 kbps)
  - WLAN (standards 802.11b and 802.11g,  
transmission speed up to 11 and 54 Mbps respectively)
- System requirements: The Unlimited PC Card 5in1 is compatible with Microsoft Windows® XP SP1 and SP2 as well as Windows® XP Tablet PC Edition.
